2/10/69

Dear Jay,

One of my colleagues loaned me some of his files. I copied and returned them without reading them. Here is one that may interest you. You may copy it if you like. The overexposed page is an extra if you can use it.

If you want an original copy I can get it from the National Archives for you, or you can get it yourself by writing the Director, enclosing 20¢ for each page, and asking for Warren Commission Document 301, pages 47-67, or whichever you may desire. If I come accross more, I'll send what I think you may want to copy.

There is greater interest in the Fields January 1969 newsletter than you can imagine. His boy is one of those involved in those bank threats! If there is anything else you can supply me on Jimmy Robinson (page 2) I'd welcome it form the appendix of that book (for which I'd also like a cleaner copy of the letter if you can supply it -one more outlook for partial reproduction). If you have nothing on Robinson, I have a little more. His middle name is George, he is an FCMP Hell's organizer, works for the Hong Kil Do, and is connected on Robert Blake, on whom I also have a file (Secret Service Control No. 627 if you are interested). It is to get this kind of data that I hoped to be able to get a consolidated index made, as I indicated to you and your San Francisco man. You could retrieve a pretty large amount of what is in the files on such characters that way.

I have learned a little more about the movie "Thumm". He apparently is a guy up to something somebody wanted him to get out of, so they hired a professional killer who always wore black (including black gloves on jobs). I think I can understand a possible reason for playing that to me, but that a man could just happen to have that tape convenient is not easy to believe.

I have not forgotten that other document. It is in spending a little "spare" time in digging through unfiled stuff looking for it that I located the enclosed. I know I have it, and if it does not show up I can replace it at not great cost.

Many thanks for the Field letter. I'll let Fensterwald copy it Friday when I am in D.C. I know you will not be. For your N.Y. copie, my last fixed date as of now is Friday. I have no specific reason to be away any specific day after that, as of now.

Sincerely,

Harold Weisberg
